CELEBRATING COMMUNITY. SUPPORTING LOCAL BUSINESS.

OCTOBER 2026

Advertorial by Naples Gazette Staff Writer

BRINGING THE SHOWROOM TO YOUR HOME

For Amy Poss, the right window treatment starts with understanding the room

When Amy Poss launched Amy's Blinds on Marco Island in 2020, she built the business around a simple idea: instead of asking customers to visit a showroom, she would bring the showroom to them.

Today, Amy visits customers with fabric books, colors, materials and working samples so homeowners can see how different options look alongside their furniture, flooring, paint and natural light.

It is a personal approach that has helped Amy's Blinds grow throughout Marco Island, Naples and surrounding communities.

Window treatments were not Amy's original career plan. Growing up near Minneapolis-Saint Paul, she worked in her family's RV park and campground business and once planned to become a veterinarian.

After moving to Marco Island, Amy accepted a part-time position with a local window-treatment company. What began with answering phones soon developed into learning products, helping customers and participating in sales consultations.

Amy's Blinds opened in summer 2020, when people were spending more time at home and noticing

problems they may have previously overlooked—afternoon heat, television glare, lack of privacy and rooms that needed better light control.

Those same everyday problems remain at the center of Amy's approach today.

Customers often don't know exactly which blind or shade they need. They simply know what isn't working. Too much sun. Not enough privacy. A bedroom that needs to be darker. A difficult sliding door. Or simply, "I don't know what to put on this window."

Amy listens first. She considers how the room is used, what the homeowner wants to accomplish and which options make the most sense before narrowing the choices.

"My job is to help simplify their choices," she says.

Amy is an independent Hunter Douglas dealer and also offers the Alta product line, including custom shades, blinds, plantation shutters and motorized options.

Motorization has become especially appealing for

CLIENT TESTIMONIAL: You just completed several jobs in our home — refitting a cabinet for a new TV, building shelves in the existing closet, and replacing baseboards. We are so pleased with everything. The workmanship is meticulous, and everything looks so good that is impossible to know that it wasn't part of the original design. The work area and the house were both spotless the end of each day. Complements on the work done. Thank you — E. T.

New Medical School

Coming To East Naples

COLLEGE OF
OSTEOPATHIC MEDICINE

Recently, a large crowd gathered for the ground breaking of the soon-to-be Naples College of Osteopathic Medicine. The \$200+ Million three-story investment on a 5-acre parcel near Rattlesnake Hammock Road & Collier Blvd is the vision of husband-and-wife physicians Drs. Kiran and Pallavi Patel (who have already built 5 other medical schools in Florida). Dr. Wolfgang Gilliar was long ago selected as the Dean and Chief Academic Officer for this 6th school -- and served as host for the event. A large group of School Administrators, Board members, business and County leaders, and local healthcare professionals gathered on the site with shovels to get the project started. This school will assist in addressing a major physician shortage in Southwest Florida and train generations of doctors, who after graduating -- many are expected to remain in our local area and State to practice. Naples Comprehensive Health (NCH) is in partnership

with the school... assisting with a clinical and educational role... as are several other local healthcare agencies. In addition, this medical school will have a significant positive financial impact on our local economy -- estimated to exceed \$2 Billion over the next 25 years. Along with Founder Dr. Patel, Dr. Gilliar (Dean), Jim Mahon (VP NCH), Michael Winn (NCH Board), and several physicians from NCH... I was honored to also be one of several speakers at the event to stress this is a TOTAL TEAM effort to solidify a prominent medical school in Collier County. The college plans to open in Summer/Fall 2028, initially

with 90 students... growing to 180 per class... with an eventual total enrollment of 720+ students. The inaugural class is anticipated to graduate in the spring of 2032. As was stated in the event program: "Today we make the vision visible... Tomorrow, together -- we will make it enduring."

Should you ever have any County or District 1 questions -- I welcome all emails which I personally answer.

But for Amy, selecting a window treatment is about more than appearance or technology.

It needs to work well for the people living in the home.

That is why she still believes the best place to begin is right there in the room, looking at the actual window.

HOROSCOPES

Autumn reminds us that letting go can make room for something beautiful to begin.
For entertainment purposes only. The stars made us say it.

October arrives with a shift in energy. Relationships, home life, finances and future plans come into sharper focus, while the changing season encourages us to clear away what no longer fits. Trust your instincts, stay flexible and remember that sometimes the best opportunities arrive when plans take an unexpected turn.

ARIES — March 21–April 19 October puts relationships and partnerships in the spotlight. You may find yourself reconsidering how much you give compared with what you receive. Honest conversation clears the air and can strengthen an important bond. Professionally, patience works better than pushing for immediate results. Financially, avoid unnecessary impulse purchases later in the month. Lucky Days: 6, 14, 27. Lucky Color: Red.

TAURUS — April 20–May 20 This is an excellent month to get organized and restore some balance to your daily routine. A project you have been putting off becomes easier once you simply begin. Someone close may need your practical advice, but remember you don't have to solve everything for everyone. Romance becomes warmer toward month's end. Lucky Days: 4, 18, 29. Lucky Color: Emerald Green.

GEMINI — May 21–June 20 Your social side comes alive in October. Invitations, conversations and unexpected encounters could lead to something worthwhile. Creativity is especially strong, so follow through on an idea you've been considering. Be careful not to spread yourself too thin, particularly around midmonth. A financial opportunity deserves a closer look before you commit. Lucky Days: 8, 16, 25. Lucky Color: Yellow.

CANCER — June 21–July 22 Home and family take priority this month. You may be rearranging, repairing or simply trying to make your surroundings more comfortable. A family discussion could finally resolve

something that has lingered too long. Career matters improve when you trust your experience instead of second-guessing yourself. Make time for rest as October winds down. Lucky Days: 3, 12, 24. Lucky Color: Silver.

LEO — July 23–August 22 October keeps you moving. Calls, meetings, short trips and new ideas fill your calendar, making this a productive but busy month. Your natural confidence helps you make a strong impression, especially in professional matters. Just make sure you're listening as much as you're talking. An old friendship or connection could unexpectedly resurface. Lucky Days: 7, 19, 30. Lucky Color: Gold.

VIRGO — August 23–September 22 Money and personal priorities come into focus. October is a good month to review expenses, make practical plans and decide what is genuinely worth your time and resources. You could receive recognition for something you've quietly been doing well. In relationships, don't overanalyze every word—sometimes the simplest explanation is the right one. Lucky Days: 5, 17, 26. Lucky Color: Navy Blue.

LIBRA — September 23–October 22 Happy birthday, Libra! October gives you an opportunity for a personal reset. Decide what you want the next chapter to look like rather than simply continuing with old routines. Your charm is especially strong, making this a favorable month for relationships, negotiations and new introductions. Put yourself first occasionally without feeling guilty about it. Lucky Days: 2, 15, 23. Lucky Color: Rose Pink.

SCORPIO — October 23–November 21 October begins quietly but becomes increasingly powerful as your birthday season approaches. Pay attention to your intuition; something happening behind the scenes may soon make much more sense. This is a good month for

finishing unfinished business and releasing an old worry. By month's end, your confidence and determination return in full force. Lucky Days: 9, 20, 31. Lucky Color: Burgundy.

SAGITTARIUS — November 22–December 21 Friends, organizations and community connections bring opportunities this month. Someone in your wider circle could provide useful information or introduce you to an interesting new possibility. Keep your schedule flexible because an unexpected invitation may be worth accepting. Financially, think long-term rather than chasing quick results. Lucky Days: 1, 13, 28. Lucky Color: Purple.

CAPRICORN — December 22–January 19 Your steady approach gets noticed, and this may be the right time to ask for support, present an idea or take on greater responsibility. At home, however, someone may simply want your attention rather than another solution. Balance ambition with quality time. Lucky Days: 10, 21, 29. Lucky Color: Charcoal Gray.

AQUARIUS — January 20–February 18 October encourages you to broaden your horizons. Travel, education, technology or a new area of interest could capture your attention. If life has felt repetitive lately, a change of scenery or routine will help. Someone with a very different perspective may teach you something valuable. Keep an open mind around midmonth. Lucky Days: 6, 18, 27. Lucky Color: Electric Blue.

PISCES — February 19–March 20 This is a month for looking beneath the surface. Financial arrangements, shared responsibilities and deeper emotional matters may require attention, but clarity brings relief. Don't be afraid to ask questions before agreeing to anything important. Romance becomes more meaningful when you say what you truly feel instead of hoping someone will guess. Lucky Days: 4, 14, 22. Lucky Color: Sea Green.
